

# Y2 Autumn (i)

## Paws, Claws and Whiskers

### English

In English we will be using lots of lovely books to inspire our writing—some old favourites like 'The Tiger who came to tea' and some new ones about bats, cats and other animals. We'll also be writing factually about tigers and enjoying learning poems about animals.

### Maths

Our Maths learning will be focused on the number system and addition and subtraction with work on Money and Shapes as well. The Friday favourite 'Big Maths' will be back to help improve our mental maths skills.

### Science

In Science lessons we'll be learning all about animals. We'll find out how to group them and identify their features. We'll also learn about how and what different animals eat and the habitats they like to live in.

### Music

Music lessons this half term will be all about singing.

### RE

In RE we will be thinking about being creative and being thankful for the natural world. We will learn about some creation stories from different faith traditions.

### REPTILES

dry scaly skin (no hair or fur)

can't see ears

= 4 legs or no legs

### Geography

In Geography lessons, the class will be learning where the UK is in the world, identifying oceans and continents, hot and cold regions and N, S, E, W.

### Art and DT

In Art, our focus will be on drawing animals using pencils, chalks and pastels and looking at texture, colour and pattern ...

...and in DT we will be designing and making 3D animal masks

### PE

PE will be on Thursdays and Fridays. We will be playing football outdoors and dancing to the Carnival of the Animals music by Saint-Saens indoors.
